

## THE ORGAN

The organ is Opus 645 of [The Peragallo Pipe Organ Company](#) of Patterson, NJ. It is a 16 ½ rank instrument with more than 1,000 pipes, some as tall as 8 feet and some smaller than a pencil. The console, in the tiered French style, is two manuals and pedal. The keys of the manuals and the foot pedals are wood, the naturals crafted of light Maple and the sharps/flats crafted of darker Padouk. The Swell division, which is under expression, is housed in the left case. The Great and Pedal divisions are housed in the right case. The Saint John Trompette, playable from all three divisions, joins the two cases together in a stately “en chamade” formation.
